SUMMARY

Final year undergraduate engineering student. Proficient in Python programming, SQL, and data analysis.

EXPERIENCE

Microsoft Learn Student Ambassador | Microsoft | August 2020 - Present

- Formed a community group of more than 30 students to discuss coding problems.

Founder | Vanijya Technology | Meerut, Uttar Pradesh, India | February 2020 - Present

- Started this company to help small businesses use data analytics insights in their decision-making.
- Consulted more than 10 businesses on how to use modern technologies in doing business.

Campus Ambassador | Paytm | February 2020 - Present

- Encouraged more than 200 students in paying their fees online.
- Encouraged more than 400 people in the rural area to receive payment online.

Business Intelligence & Analytics(Graduate Rotational Internship Program) | The Sparks Foundation | August 2020 - September 2020

- Performed 3 Machine Learning tasks using Python.
- Demonstrated each task in a video to help others understand my findings.
- Learned how to select the best algorithm.

Microsoft Student Partner | Microsoft | September 2019 - August 2020

- Organised 4 technical workshops and more than 10 speaking engagement programs.
- Helped more than 200 underprivileged & 1000 college students in learning write to code and data analysis.

Campus Representative | Abhyuday, IIT Bombay | July 2019 - March 2020

- Helped the Abhyuday team to connect with the social activities interested students.
- Shared information about the Abhyuday event with more than 1000 students at my college.

Campus Ambassador | Zeitgeist, IIT Ropar | August 2019 - October 2019

- Helped the Zeitgeist team to connect with the social activities interested students.
- Shared information about the Zeitgeist event with more than 1000 students at my college.

Student Satellite Development Program | Meerut Institute of Engineering & Technology | Meerut, UP, India | July 2018 - June 2019

- Performed with diverse background students on this research project.
- Analyzed how Cubesat satellite works and deployed by space vehicle.
- Examined how heat transmits by the Cubesat satellite.
- Helped other team members in writing to code.

SKILLS

Python, Data Analysis, Business Analytics, SQL, Tableau, Power BI, Statistics, MS Excel, Hive, Impala, Hue

PROJECTS

Cubesat | Meerut Institute of Engineering & Technology | July 2018 - June 2019

COVID19 Data Analysis | 2020

Best Place Prediction | 2020

Sales Dashboard | 2020

India Census Data Analysis | 2020

EDUCATION

Bachelor of Technology(Mechanical Engineering) | Meerut Institute of Engineering & Technology | Meerut, UP, India | 2017 - 2021

CERTIFICATIONS

IBM Professional Data Science Certificate | Coursera | 2020

Python For Everybody | Coursera | 2020

India Microsoft Student Partners Summit | Microsoft | 2020

INVOLVEMENT

Selected Member | Meerut Institute of Engineering & Technology | Incubation Cell | September 2019 - Present

- Incubated my own start-up in an incubation cell.
- Helped more than 10 innovators in brainstorming and project improvement.
- Help incubation cell head in onboarding other start-ups and in organizing webinars.
